**Libraries / Frameworks / Tools** - React | Redux | React Testing Library | Node | Express | Jest | jQuery | Flask | Jinja | SQLAlchemy | JWT | WTForms | AWS S3 | Apollo | Bootstrap | PostgreSQL | REST | Git | Github

---

## WORK EXPERIENCE

### Software Engineer Intern

May 2022 – Jun 2022

Foqal | San Francisco, CA

- Utilized Apollo, Typescript, and React to fetch data and build responsive front-end UI, allowing for admins to customize their Agent dashboards with addition/modification of their ticket columns.
- Implemented responsive design for the Navbar using Bootstrap and CSS, testing for a range of screen sizes and making sure it remained readable in collapsed views.
- Diagnosed and resolved issue for adding severity tags to newly created tickets through understanding of object types and GraphQL mutations, making sure data sent and received was of expected data types
- Added unit tests using Jest for each feature, and also utilized Cypress for an end to end test of a UI heavy addition.

### Baker

Jul 2021 – Dec 2021

Black Jet Bakery | San Francisco, CA

- Consistently baked all the bread and pastries on time each morning, making sure their quality was up to standards and made a plan for the dough for the next day.
- Developed/tested new recipes and breads alongside the owners to expand the menu.

### Cook

Jan 2021 – Jul 2021

Palette | San Francisco, CA

- Fine dining level cooking focusing on the California coast and in season produce, working very methodically to uphold a high standard set by the chefs and deliver a top level product.
- Documented our inventory, managing my responsibilities and making sure every component was prepared on time.

### Chef Tournant

Jan 2019 – Jan 2020

Nightingale | Vancouver, BC

- High intensity, "casual fine dining" kitchen averaging 300-400 covers each night, emphasizing quality of products.
  - Efficiency and speed are stressed while maintaining proper technique and presentation.
  - Trained and mentored new cooks after learning each station, allowing me to be useful in any role.
- 

## EDUCATION

### Rithm School

Mar 2022 – Jun 2022

Full Stack Web Development Bootcamp

San Francisco, CA

### University of British Columbia

Aug 2016 – Jun 2018

Computer Science | Cognitive Systems

Vancouver, BC

---

## PERSONAL PROJECTS

**Jobly** - Full stack mock job board site - React | Express | PostgreSQL - [github.com/yuribelorusetz/jobly](https://github.com/yuribelorusetz/jobly)

**Share BnB** - Full stack mock AirBnB site - React | Flask | PostgreSQL - | [github.com/yuribelorusetz/shareBnB](https://github.com/yuribelorusetz/shareBnB)

**Warbler** - Full stack mock Twitter site - Flask | Jinja | PostgreSQL - | [github.com/yuribelorusetz/flask-warbler](https://github.com/yuribelorusetz/flask-warbler)
